

Knoll

Matic Sofa Collection

Like architectural building blocks, modular components are used to create the Matic Sofa configurations. The option of adjustable curved backrests furthers the flexibility of this collection by Italian designer Piero Lissoni, who was inspired by the idea of an island-like platform suspended in space.

Designer

Piero Lissoni

Benefits

- Adjustable curved backrest
- Comfortable cushions upholstered in fabric or leather
- Choice of glossy or charcoal painted finish

Key Features

- 1. Seat**
Upholstered with evenly sized squares or detailed with a T-shaped seam.
- 2. Frame**
Aluminum structure with a glossy or charcoal painted finish.
- 3. Configurations**
A wide range of configurations available, from traditional 2/3 seat sofas, to chaise lounges and end modules extending possibilities across the floorplate.
- 4. Backrest**
Chaise Lounge and End Module configurations have a special moving internal mechanism, allowing the user to adjust the position of the curved backrest.
- 5. Upholstery**
Quilted and T-Seam versions offered in a wide range of leathers and fabrics. Removable covers in fabric on the quilted version, non-removable covers on the T-seam version. Covers in leather are not removable.
