### PRODUCT DESCRIPTION LONG

Some sofas invite you to sit back. Others ask you to take space. Designed by Andreas Engesvik, Dini carries a certain confidence in its form. Wide, open, and clearly defined, it offers a place to sit without restriction, where the body can shift naturally and settle in different ways.

Its low back and generous proportions create a relaxed posture, allowing arms to rest freely and movement to remain unforced. The design draws on a mid-century clarity, where structure is evident but never rigid, and where comfort comes from proportion rather than excess.

The reference to Marcello Gandini is present in the attitude rather than in any literal expression. A sense of precision, openness, and quiet boldness runs through the design, giving it a character that feels both composed and expressive.

Comfort is central, but it is not overstated. The seat provides support while remaining open, allowing for different ways of sitting, alone or together. The sofa adapts to its use, rather than defining it.

Dini is available in a range of upholsteries, allowing it to shift in expression while maintaining its underlying character.
