PRODUCT DESCRIPTION LONG

Here, the slender frame and armrests in bent steel tubing are combined with a seat and backrest in moulded oak plywood, softly rounded for comfort. Mono Armchair is classic and slightly restrained in its expression. A sense of lightness is emphasised both by the thinness of the seat and backrest and by the slim yet highly stable legs.

Mono Armchair is designed by Note and built from durable materials for longevity, suited to a variety of environments — at home as well as in offices, restaurants, and cafés. The chair is stackable, and both the seat and backrest as well as the legs are available in several finishes.

Mono Armchair is part of the Mono chair series — a versatile and user-friendly family of chairs designed to function in a wide range of environments. Chairs from the Mono series are straightforward, durable, and simple — both in expression and function. They are available in five versions. All share the same comfortably rounded seats and backrests — yet each has its own distinct personality.
