PRODUCT NAME

Myko Armchair w Swivel

ORDER QUANTITY

1

PRODUCT FAMILY

Myko

PRODUCT SUB-CATEGORY

Swivel chair

DESIGNER

Stefan Borselius

PRODUCT DESCRIPTION LONG

Stefan Borselius is a designer known for his subtle design language and for always working with great attention to detail. Consider, for example, the exquisitely pleated leather that covers the chair's back, evoking associations with a perfectly tailored garment. That association is confirmed when you sit in it: it truly fits the body perfectly.

That Stefan Borselius is not only a designer — but also a trained cabinetmaker — becomes evident in the detailing of Myko Swivel Armchair, executed with the utmost precision and a deep understanding of the materials' qualities and possibilities. This reveals itself when you look more closely, or let your fingertips follow its seams. Myko Swivel Armchair is characterised by thoughtful design and furniture craftsmanship of the highest quality.

The word "care," incidentally, is a key concept here. Myko Swivel Armchair is made not only with care for the user and the space, but also for our shared natural environment. In its production at Fogia's factory, minimal resources are used — and very little of what is used goes to waste.

FUNCTION

Swivel, gas-lift

LEAD TIME

6-8 Weeks

COUNTRY OF ORIGIN

EU

MATERIAL ORIGIN

EU
