PRODUCT SUB-CATEGORY

Side table

DESIGNER

TAF

PRODUCT DESCRIPTION LONG

A small table can carry more than its size suggests. Designed by TAF Studio, Pastille brings together slim lines and solid forms in a compact and carefully balanced piece. Its rounded tabletop gives the table its name, a soft, tablet-like shape that sits in contrast to the slender metal base.

The design is built around this meeting of opposites. A solid oak top rests on a light metal structure, creating a sense of both stability and lightness. The proportions are precise, allowing the table to feel grounded without becoming heavy. Craftsmanship plays a central role in the making of Pastille. The wooden top is carefully shaped and finished, while the metal legs provide a clear and defined frame. The materials remain visible and honest, each contributing to the overall expression.

Pastille is easy to place and use, whether on its own or as part of a group. The tabletops are available in a range of colours, paired with powder-coated legs, allowing different expressions within the same structure.
