PRODUCT DESCRIPTION LONG

When the Tiki sofa was launched in 2014, it immediately aroused considerable curiosity among design enthusiasts. Tiki is elegant in that characteristically nonchalant way that is impossible to imitate. Today, over ten years later, much suggests that Tiki has joined the small and exclusive group of furniture that never feels like yesterday's news, but whose relevance instead increases over time. Tiki 1 Seater Small, like the sofa, is an exceptionally well-built and comfortable piece of furniture.

The inspiration for Tiki comes from Kon-Tiki — the raft that Thor Heyerdahl sailed to Polynesia in 1947. This can be seen, among other things, in the shape of the back cushion and armrests, which echo Kon-Tiki's sail when filled with wind.

This is a lounge chair that combines lightness and comfort. Movement and rest. The softly concave and convex silhouettes of the cushions and armrests contrast with the thin, sharp lines of the tubular steel legs. The materials are of the highest quality, as is the craftsmanship. Tiki is built to last and, just as importantly, it has what it takes to ensure you never tire of it.

It's available in two versions: large and small.
