KAIA

REINCARNATION

Designed by Ula Saniawa
London 2023

Central to the project is a duality: the precision of mathe-matical form meets the raw essence of materiality.

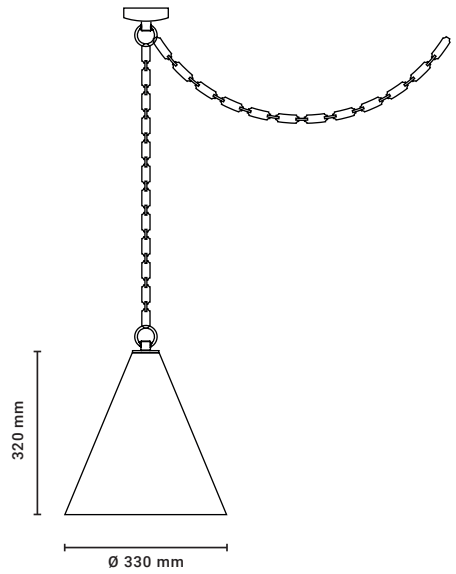

REINCARNATION is an edition sculptural light project reflecting on the potential that lies in what is often discarded and speaks passionately about sustainability by reinterpreting leftover materials. This collection of ceramic lamps is born from recycled crushed ceramics, marble, paper and wood dust - waste sourced from unit89's own studio and other creators, turning overlooked remnants into luminous masterpieces.
